

Tim Vandenabeele

IABE
Consulting Actuary

CURRENT POSITION

Tim joined Milliman in July 2014 as an actuarial consultant. After he graduated in June 2012, he started his career as adviser in the risk and finance department of Assuralia, This is the umbrella association of Belgian as well as foreign insurance and reinsurance companies operating in Belgium. He combined his studies in actuarial sciences with an internship in the life and health actuarial department of KBC Verzekeringen in Leuven.

EXPERIENCE

Tim is very familiar with the Solvency II framework. As adviser risk and finance, he was involved in several Solvency II discussions and has carefully monitored national and international developments. Further, as an interim actuary in the life and health actuarial department of KBC Verzekeringen, he gained experience in the development, pricing and reserving of common life and health insurance product types.

At Milliman, Tim is mainly busy with Prophet modelling and implementation. He also supports undertakings with the implementation and performance of Solvency II aspects like Solvency II calculations, ORSA, reporting processes and a risk management system.
