

Dale J. Visser

FSA, MAAA

Principal, Consulting Actuary

CURRENT RESPONSIBILITY

Dale is a principal and consulting actuary with Milliman's Chicago office. He joined the firm in 2001.

EXPERIENCE

Dale has 20 years of experience in the life insurance industry. He consults with clients on a variety of life insurance and annuity issues, but primarily, his work is concentrated in designing and pricing life insurance products.

He has consulted on a variety of projects including variable universal life living benefits: Stochastic pricing, universal life with secondary guarantee design, UL secondary guarantee embedded option valuations, UL secondary guarantee in-force block reviews, economic reserving, and indexed universal life product development.

Prior to joining Milliman, Dale worked at life insurance companies for eight years. His responsibilities included ALM, equity index annuity product development, cash-flow testing, and asset modeling activities.
